

CGI INPUT GUIDE

DRAWINGS & BLUEPRINTS

- Drawings showing all building elevations & site plans if available
- Floor plans showing all levels (for interior images)
- Digital project files of those if available (usually in DWG, SKP, 3DS or FBX format), PDFs are OK

LOCATION DETAILS

- Country, region, specific address
- Landscape details and preferences
- Google street view if available (used for better understanding of the local themes and sense of place)

VIEWS & VANTAGE POINTS

- Number of views with angle direction needed
- Indication of preferred view angle on the floor plans for interior images and on the site plan for exterior images if available
- Alternative text descriptions are OK

MOODBOARD

- Architectural & interior style preferences
- Trees and vegetation style preferences
- Color and material preferences for walls, roofing, windows, floors, fixtures, and fittings
- Time preference (daylight, dusk or night)
- Sample photos of all things above if available
